The President's Notes

Jeff McElravy

(jmcelravysr@cinci.rr.com)

At the last meeting, we had our Board of Directors and Officer elections. Jon is posting the list elsewhere in the BUFFER. We had a number leave their positions and new faces joining. Mike McCracken has served a number of years as Secretary. I certainly appreciate his sorting out of our BOD meetings to a concise and reasoned document. J.R. Jackson attended our last meeting to get acclimated. Lou Haynes, Mike Bryant, Roger Corrado, Jim Boude, Steve Lilly, and Jerry Schatzman have stepped back from an active service, but are going to help as they can. They have done a great job for a number of years and we will miss them. I would like to welcome Ed Jones, and Phil Pursley to the BOD. In the next couple of months, we will be looking at organizing the BOD to fit its members. I will swear in the Officers and Board of Directors at the March meeting.

Please check the Calendar for the Educational Events and Trips. We have a lot going on this year, and the sooner the leaders are able to organize, the better it will be for all of us. If you feel there is a class that would be helpful and we are not doing it, let the BOD know. We can work on it. The same goes for Trips. Steve Bailey is always looking for new places to fish and leaders to take us there.

The Greater Cincinnati Fly Show is Feb. 4. This our largest public education program and a great time, too. We have a large vendor area and fly tying space. Mark Ringstetter and Roger Corrado have been putting this together with Ken Dixon organizing the fly tying side. If you would like to be part of the fly tying area, please contact Ken. He may be able to fit you in. Mark and Ken can use help getting the tyers and vendors in before the show and out after. We are one of the few that do this service and it is greatly appreciated.

Cabin Fever Relief Banquet is March 3. This is our major fund raiser of the year. We need have any many members as we can attend and enjoy the event. We have a great speaker for the whole family this year. Ken Reinard is the Colonial Angler and will show us how it was done during the founding of our country. Make your reservations and buy your raffle tickets. There are reservations forms on our Web site. We are also looking for donations for our raffle tables. You can purchase

BUFF February 2012 Program

Chad See is our speaker. He is manager of Elk Spring Resort and owner of Mount'n Critters Taxidermy. He has guided for many years and fished in many areas of North America. Chad will discuss the Elk Springs Resort and the many recent changes they have made. He will review the background of the area and explain what makes the Elk and surrounding area so special. He will discuss the fish, the bugs and the how to's about catching fish with various techniques (Midging, Dry/dropper, Streamers, Nymphing and sight fishing)

something to donate or better yet make something. Bob tells me, these items are what they are looking for mostly now. Remember, not all of us attending are fly fishers, so items not related to fishing are welcome. Gift cards would work just fine. Please bring these items to the February meeting or contact Debbie Hampton. These donations are tax deductible. Remember; make your reservations and BUY THOSE RAFFLE TICKETS! Oh! And don't forget to bid on the auction items.

I want to thank you for registering for the dinners at our last meeting. The number of members wishing to eat and forgetting to sign up was about a handful. There were some members that came and chose not to eat and that is fine. After a while we will get a handle on that number so we can have accommodations.

As I am writing this, it is a 50ish day in January. The fly rod was calling. I spend about 45 minutes out casting to prove I hadn't forgotten everything I knew. Spending a half hour as often as you can (maybe daily) can make a big difference in your casting ability. I have found that it really works well when I am on a stream and the fish are cooperating. I was only out twice in January and I better start looking for those warm days in February if I am going to make my days fishing goal. Help me out when you can. And don't forget your fly tying. Best time to stock up for spring fishing.

Jeff

TWO NEW HAZEL CREEK BUFF TRIPS (FALL AND SPRING)

October 20-25th 2011 was the first ever Buff Hazel Creek Fall Brown Trout trip in Smoky Mountain National Park. It was a great success. The next one is a Spring Trip planned for May 3-6 2012. We also have a date for the Fall Brown Trout Trip at the same venue, October 18-21, 2012. These trips were featured at our January Buff Meeting by guest speaker, Steve Claxton, our host and guide for the Smoky Mountain Hazel Creek Trips. Steve came to our meeting to describe the Hazel Creek Trout Trips and answer questions for everyone who may be interested in future Hazel Creek Buff trips.

A unique feature about the Hazel Creek trips is their remote location in the Smoky Mountain National Park, that are accessible only by boat across Lake Fontana, or a very long backpacking hike around the lake. The trips start on Thursday around noon, when we board Steve's big pontoon boat to cross Lake Fontana with all our gear to the trail head on Hazel Creek. From there we hike a short distance to Campsite 86, where the "Hazel Creek Hilton" will be set up and ready for us. *These are camping trips on reserved "back country" sites within the National Park.* However this is *luxury "Hazel Creek Hilton" type camping* with all camping equipment, tents (large double occupancy stand-up), food, luxury cots with mattresses, and even firewood, all provided and set up on site by Steve and Becky Claxton (master backwoods chef), who are owners, hosts, and guides for the Smoky Mountain Adventure Guide Service. *Only sleeping bags and fishing gear are not provided.*

These National Park back country campsites are "reservation only", and are limited to 10 Buffers per trip. The list is now forming for the Spring Trip with "interested parties" being added in the order they are received... The same is true of the Fall trip. Reservations for all trips are on a "first come" basis.

Another unique feature of the trips is the history of Hazel Creek itself. There are three species of trout; rainbows, browns and the unique Eastern Mountain Speckled Trout, a native species whose ancestry on Hazel Creek dates back about 6,000 years. Also, evidence of the communities and towns of mountain people who lived along Hazel Creek is still there, dating back to 1830. Hazel Creek fish populations of all three trout species are good, and do not require "catch and release only", making a fresh trout dinner a distinct possibility for campers. Actual fish counts by park service fish biologists indicate populations of 5000 fish per mile. This is higher than nearly all streams in Montana and elsewhere.

More details on these trips will be available on the Buff Web Page. There is also a video link to the Fall 2011 trip that will enable you to see pictures of our Buff members on beautiful Hazel Creek, the fish, the campsite, and other aspects. If you would like to be added to the lists for either or both of these trips,—Spring Trip May 3-6 or Fall Trip October 18-21, please email Bill Schroeder at wschroeder@cinci.rr.com and designate which events you are interested in. By doing this, you make no commitment, just express interest. The "I'm interested lists will become the "I'm going" lists in the date/time order emails are received. We will firm up who is going around March 9th, when a \$100 deposit will be required to hold each spot. The second and final payment of the \$300 balance will be due April 9th. Total trip cost is \$400 per person, everything included. Deposits are fully refundable so long as your spot is filled by someone on the wait list. At this writing, neither trip is full.

***Not everything is known,
much less understood, about our world.***

Caddisflies are active throughout the winter, thanks in part to the annual crop of leaves from our deciduous trees. Then as the waters warm, they begin their emergence as adults with hatches occurring any time from early spring to late fall.

Dolophilodes in the summertime

There is one weird species Dolophilodes Distinctus that will emerge all year round. They look and behave like any other caddisfly during the warm months but when they come out in the winter, the females don't have any wings. It may not be a large emergence but they are around, and have been seen crawling on top of snow. Usually caddisflies are ready to reproduce as soon as they emerge, but no one seems to know if the Dolophilodes mate during the winter months. If they are not mating, what are they doing, and what happened to their wings?

Same insect in the winter
